
HOW TO USE THIS MAP

GET OFF THE COUCH AND RIDE. This map was created using GPS and FGE technology and is intended solely as a resource and a guide to help you find where the rides are. As far as the rating system for a trail's difficulty is concerned, the ratings are completely subjective.

LIABILITY

ZILTCH. ZIP. ZERO. No mountain bikers were killed in the making of this map, but mountain biking is a potentially dangerous sport and the user of this map agrees to use this map at his or her own risk. This map does not attempt to distinguish between public and private property or imply access to the trails. The user therefore acknowledges that the trails may be on private property and will not ride on any of them.
